

Introducing the Biobot Eco Dryer

The friendly, easy to use, ultra high-speed hand dryer...perfect for kids

Front view of Biobot Eco Dryer

Flat artwork for wall 840/560mm

Angled view of Biobot Dryer

Dryer is fixed to wall 840mm off ground (3-10 year olds)

Thick piece of waterproof plastic is used for the rest of the Biobot's body which will be placed on the wall underneath the drying unit. (Kids instructions to be added)

'making and learning can be fun!'

Biobot Eco Dryer

The new fun way of introducing children to drying their hands, and they can help save the planet too!

Better for the environment

Biobot consumes just 10% of the energy used by a conventional hand dryer, and has a whopping 98.5% saving over using paper towels.

By teaching our children the benefits of using energy efficient products they will help reduce our carbon footprint, which will provide a better environment for their future and the generations to come.

Biobot Scheme

For every 'Biobot' dryer sold (or rented) we will give away absolutely free a Biobot splash back which conveys this important environmental message. We will also supply free of charge an unlimited number of Biobot cut outs, which can be used in a fun way to teach children the importance of Biobot and other energy efficient products.

Biobot Eco Dryer technical specifications

Item category	Performance data
Operating voltage	220-240 Vac, 50Hz
Air speed	90 m/s (200 m ³ /h),
Motor type	640W adjustable brush type
Heater element	240W thermal protected
Rating power	900 watts
Drying time	Under 10 seconds
Circuit operation	Infrared automatic, self adjusting
Timing protection	60 seconds auto shut off
Drip proof	IP22
Isolation	Class 1
Net weight	4.5kg
Unit size	300 x 280 x 175mm
Finish	Die cast aluminium, Powder Coat finish
Decibel rating	70 dba @ 1 mtr
Approvals	CE, WEEE Greenspec®
